

Power Box Plus

SPECS

-  85g (Bare Metal)
-  86.0 × 78 × 27 mm
-  -40°C ~+70°C
-  8% to 95%

Product overview

Power box Plus uses the OBD interface to connect to the vehicle, supports J1939, J1850, J1708 protocols, and outputs to the host through the serial port after analysis.

Product features

- **OBD connection;** supports J1939, J1850, J1708
- **2 CAN, 3 digital inputs, 1 RS232, 1 iButton**
- **Input: 9–36V | Output: 12V@0.5A**
- **Compact (86x78x27mm), 85g**
- **Operating Temp: –40°C to +70°C**

PRODUCT SPECIFICATIONS

Model	
	Power box Plus
Interface	
RS232	1 channel
SENSOR IN	3 inputs
iButton	1 channel
CAN	2 channels
Power	
Enter	DC 9-36V
Output	12V@500mA
Standby power consumption	24V@5mA
Physical properties	
Size (mm)	86.0 mm×78 mm×27 mm
Weight (g)	85g (Bare Metal)
Working environment	
Operating Temperature	-40°C ~ +70°C
Operating Humidity	8% to 95% (non-condensing)
